

2025

POST SHOW REPORT

SOUTH ASIA'S LARGEST & PREMIER
MULTIMODAL LOGISTICS EXHIBITION
& CONFERENCE

Thank you Note

The India International Cargo Show: IICS 2025 concluded at a pivotal moment for the logistics industry, marked by both opportunity and complexity. This edition reflected the sector's evolving priorities with a clear focus on execution, coordination and long-term value creation.

Across the exhibition and conference, stakeholders from India and overseas engaged in practical dialogue around air, ocean and surface logistics. Discussions centred on implementation, partnerships and measurable outcomes, while national and international voices examined global trade flows, geopolitical shifts and India's expanding role in regional and global supply chains.

IICS 2025 was shaped by the collective participation of the industry. The depth and quality of engagement reinforced its position as a platform for informed exchange and meaningful collaboration. We thank our exhibitors, speakers, sponsors, partners and visitors for their contributions. Their participation was central to the relevance and substance of this edition.

As the logistics ecosystem continues to evolve, IICS remains committed to serving as a neutral, credible platform that supports dialogue, connection and progress across the sector.
